Panasonic

IDEHAL Gostar
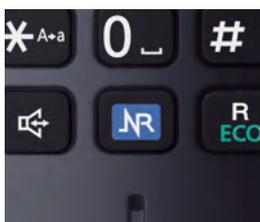

Sophisticated and Comfortable

A sharp, sophisticated form. An elegant addition to your home.
Simple to learn, simple to use functions. Style in simplicity.

Noise Reduction
Reduces background noise of the other party

1.45-inch TFT Colour LCD
Displays both text and colour images with high clarity and visibility

Thin and Compact Base Unit
An efficient size that you can place almost anywhere

Key Finder Compatible
The handset can detect lost items with the attached Key Finder

Noise Reduction

Reduce the background noise of the other party

When the area around the other party is noisy and it is difficult to hear, you can reduce the surrounding noise to make the speaker's voice easier to hear just by pressing the dedicated button.

Incoming Call Barring

Stop unwanted junk calls

You can block annoying calls from unwanted numbers. Numbers on your call block list will be blocked (the unit emits no sound to the caller, and disconnects the call) if they call you.

* Requires subscription to the Caller ID service offered by your telephone company.

Shared Phonebook

Centrally controlled phonebook

The phonebook can be automatically shared between handsets without having to copy it, so you can use it in the kitchen, the living room, etc. Any handset registered to the base unit can use the shared phonebook.

Key Finder Compatible

The handset detects lost items

Simply attach the Key Finder to items that you often misplace, and use the KX-TG785x series handset to find them quickly and easily. You can see how close you are to your lost item on the LCD screen, and both the handset and Key Finder beep when being searched for, making them easy to find.

*The optional Key Finder KX-TGA20 is required.
